

~~CONFIDENTIAL~~

7 August 1956

APPENDIX B

EXPLOITATION SUBCOMMITTEE
OF THE
ADVISORY COMMITTEE ON FOREIGN LANGUAGE PUBLICATIONS

Requirements of the IAC agencies which cannot be met by existing facilities

A. USSR (nonscientific)

FIRST PRIORITY

1. Ministry Organization
Coverage of periodical and monographic literature
2. Party and Government
Coverage of periodical and monographic literature
3. Biographies
Increase in currency of coverage
4. Military; Paramilitary; Civil Defense
Coverage of expanded volume of source material and exploitation in depth
5. Motor Vehicles
Coverage of periodical literature
6. Communications Equipment and Instruments
Coverage of periodical literature
7. Arctic and Antarctic
Coverage of monographic literature
8. Radio Communications
Coverage of periodical and monographic literature
9. Mapping, Personnel, Agencies, and Territorial Changes

~~CONFIDENTIAL~~

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

A. USSR (nonscientific)

SECOND PRIORITY

1. Higher Education
Coverage of monographic literature
2. Extractive, Production, and Power Machinery
Coverage of periodical literature
3. Construction, Transportation, and Service Machinery
Coverage of periodical literature
4. Water Transport
Maintenance of ships register of USSR merchant fleet

THIRD PRIORITY

1. Propaganda Campaigns
Coverage of monographic literature
2. Crime
Coverage of Komsomol efforts to stamp out hooliganism and other crimes
3. Legal system
Coverage of organization of judiciary, juridical theory
4. Telephone and Telegraph Communications
Coverage of monographic literature
5. Construction Materials
Coverage of production of glass, bricks, cement, and precast reinforced concrete products; facilities and equipment

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

B. SCIENTIFIC and TECHNICAL

FIRST PRIORITY

1. Radiation sickness, radiation chemistry, chemistry of fuels and explosives bearing on guided missile research, and chemistry of semiconductors from current Soviet books and monographs
2. Guided missile information from current Soviet books and monographs
3. Atomic energy information from current Soviet books and monographs

SECOND PRIORITY

1. Technical aspects of telecommunications and electric power from current Soviet books and monographs

THIRD PRIORITY

1. Medical, veterinary, and biological information from current Soviet books, monographs, and periodicals (Arctic medical data; biological, chemical, and pharmaceutical industry data; epizootics; public health facilities and training; epidemiological data; laboratory and medical instruments)

C. EASTERN EUROPEAN SATELLITES

FIRST PRIORITY

BULGARIA

1. Organization of state organs directing the economy; national economic aggregates, e.g., budgets, planning figures, industrial production indexes, prices, productivity, total retail sales, profits of nationalized industry and subsidization.
2. Statistics on shipbuilding production, investments, installations, and manpower
3. Mapping programs, agencies and personnel; territorial-administrative division changes; adoption of Soviet mapping system
4. General Economic
 - a. National aggregates: national income (total values and indexes, by economic sectors and industry), allocations of national income to end users, total retail sales, productivity, profits of national industry, reduction of plant costs, labor force (total, by economic sectors and by industry), prices, and subsidies. Percent changes of any of above from previous year or base year; percent plan fulfillment of any of above
 - b. National budget: revenues, expenditures, budgeted investments, fulfillment of budget plan
5. Finance: banking, currency, foreign debts and credits, foreign exchange, gold movements, arrangements for foreign payments, domestic debt, domestic savings
6. Foreign trade: planned and actual in values of percents; total imports and exports by trading partner and sector; trade in major commodities

CZECHOSLOVAKIA

1. Organization and functions of the central ministries of the government
2. National economic aggregates, e.g., budgets, planning figures, industrial production indexes, prices, productivity, total retail sales, profits of nationalized industry and subsidization

CZECHOSLOVAKIA (Contd)

3. Mapping programs, agencies and personnel; territorial-administrative division changes; adoption of Soviet mapping system
4. Legislation affecting communications; communications treaties
5. Individual electric power plant capacities, plant fuel supplies, technological developments, investments in electric power facilities
6. Data on shipbuilding industry to include: manpower figures, material input and product destination, production difficulties, prices and aggregate export figures
7. Technology of ferrous and non-ferrous metals industry, shortages and controls, and new technological developments
8. General Economic
 - a. National aggregates: national income (total values and indexes, by economic sectors and industry), allocations of national income to end users, total retail sales, productivity, profits of national industry, reduction of plant costs, labor force (total, by economic sectors and by industry), prices, and subsidies. Percent changes of any of above from previous year or base year; percent plan fulfillment of any of above
 - b. National budget: revenues, expenditures, budgeted investments, fulfillment of budget plan
9. Finance: banking, currency, foreign debts and credits, foreign exchange, gold movements, arrangements for foreign payments, domestic debt, domestic savings
10. Foreign trade: planned and actual in values of percents; total imports and exports by trading partner and sector; trade in major commodities

HUNGARY

1. Organization and functions of the central ministries of the government
2. National economic aggregates, e.g., budgets, planning figures, industrial production indexes, price data, productivity, total retail sales, profits of nationalized industry and subsidization

HUNGARY (Contd)

3. Data on shipbuilding industry to include: annual production figures; new products and technological developments; material input and product destination; production difficulties
4. Mapping programs, agencies and personnel; territorial-administrative division changes; adoption of Soviet mapping system
5. Technology of ferrous and non-ferrous metals industry, shortages and controls, and new technological developments
6. New rail lines and improvements and their significance; statistics on new railroad equipment and rolling stock; inland water transportation
7. General Economic
 - a. National aggregates: national income (total values and indexes, by economic sectors and industry), allocations of national income to end users, total retail sales, productivity, profits of national industry, reduction of plant costs, labor force (total, by economic sectors and by industry), prices, and subsidies. Percent changes of any of above from previous year or base year; percent plan fulfillment of any of above.
 - b. National budget: revenues, expenditures, budgeted investments, fulfillment of budget plan
8. Finance: banking, currency, foreign debts and credits, foreign exchange, gold movements, arrangements for foreign payments, domestic debt, domestic savings
9. Foreign trade; planned and actual in values of percents; total imports and exports by trading partner and sector; trade in major commodities

POLAND

1. Organization and functions of the central ministries of the government.
2. Budgets; gross national product; industrial production indexes; prices; productivity; total retail sales; profits of nationalized industry and subsidization; foreign and domestic trade
3. Data on shipbuilding industry to include: product destination; production difficulties; prices and aggregate export figures

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

POLAND (Contd.)

4. Distribution, allocation, and consumption of electric power; plant supplies; technological developments in power; reserves and resources; aggregate figures at industry level on input of all types of equipment and materials
5. Mapping programs, agencies and personnel; territorial-administrative division changes; adoption of Soviet mapping system
6. Information on rail and water transportation including: official statistical data on performance; rail and water transport facilities; statistics on new railroad equipment and rolling stock
7. Population statistics; population movements; public health and sanitation
8. General Economic
 - a. National aggregates: national income (total values and indexes, by economic sectors and industry), allocations of national income to end users, total retail sales, productivity, profits of national industry, reduction of plant costs, labor force (total, by economic sectors and by industry), prices, and subsidies. Percent changes of any of above from previous year or base year; percent plan fulfillment of any of above.
 - b. National budget: revenues, expenditures, budgeted investments, fulfillment of budget plan
9. Finance: banking, currency, foreign debts and credits, foreign exchange, gold movements, arrangements for foreign payments, domestic debt, domestic savings
10. Foreign trade: planned and actual in values of percents; total imports and exports by trading partner and sector; trade in major commodities
11. Legislation affecting communications; communications treaties

RUMANIA

1. Organization and functions of the central ministries of the government
2. Budgets; gross national product; industrial production indexes; foreign and domestic trade
3. Production, distribution, allocation, and consumption of electric power; plant fuel supplies

RUMANIA (Contd)

4. Location and capacities of shipbuilding installations being constructed and planned; new technological developments
5. Development of port facilities; operational efficiency of railroad transport
6. Mapping programs, agencies and personnel; territorial-administrative division changes; adoption of Soviet mapping system
7. General Economic
 - a. National aggregates: national income (total values and indexes, by economic sectors and industry), allocations of national income to end users, total retail sales, productivity, profits of national industry, reduction of plant costs, labor force (total, by economic sectors and by industry), prices, and subsidies. Percent changes of any of above from previous year or base year; percent plan fulfillment of any of above.
 - b. National budget: revenues, expenditures, budgeted investments, fulfillment of budget plan
8. Finance: banking, currency, foreign debts and credits, foreign exchange, gold movements, arrangements for foreign payments, domestic debt, domestic savings
9. Foreign trade: planned and actual in values of percents; total imports and exports by trading partner and sector; trade in major commodities

YUGOSLAVIA

1. Development of port facilities and water transport; organization and administration of transportation; operational efficiency of railroad transport
2. Mapping programs, agencies and personnel; territorial-administrative division changes; city development in connection with important industrial installations

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

C. EASTERN EUROPEAN SATELLITES

SECOND PRIORITY

BULGARIA

1. New products and technological developments, plant construction or expansion
2. Postal and telecommunications facilities in service, being constructed, or planned, and inadequacies in facilities or services

CZECHOSLOVAKIA

1. Data on construction and construction materials industry to include: construction methods and technology, aggregate figures on construction materials industry, material shortages and substitutes, investment data, and production of individual cement factories
2. Data on inland water transportation; new rail lines and rail line improvements and their significance; expansion of rail yards and stations
3. Postal and telecommunications facilities in service or planned, and inadequacies in facilities or services
4. Food processing industry

HUNGARY

1. Aggregate figures on the construction materials industry; new construction methods and technology; quantity and types of construction equipment; new materials, shortages of materials; investment data; production of individual cement factories
2. Inadequacies in postal and telecommunications facilities and service; economic factors relative to communications services; e.g., prices, labor and investment

POLAND

1. Aggregate figures on the construction materials industry; new construction methods and technology; quantity and types of construction equipment; new materials, shortages of materials; investment data; production of individual cement factories

C-O-N-F-I-D-E-N-T-I-A-L

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

POLAND (Contd)

2. Inadequacies in postal and telecommunications facilities and service; economic factors relative to communications services; e.g., prices, labor and investments

RUMANIA

1. Technological developments in fuel and power industr; fuel reserves and resources; input of all types of equipment and materials
2. Investment data on the construction materials industry; new materials and techniques

THIRD PRIORITY

BULGARIA

1. Theory of price formation, national income calculation, money and banking statistics, investments and sources of invested funds, theory of wages, and labor allocation, functional breakdown of labor force, labor union membership, standard of living, and training of labor force

CZECHOSLOVAKIA

1. Standards in the construction industry; housing construction at key industrial installations
2. Developments in motor transport

POLAND

1. Standards in the construction industry; housing construction at key industrial installations

RUMANIA

1. Operational efficiency of communications facilities
2. Housing construction at key points; quantity and types of construction equipment

C-O-N-F-I-D-E-N-T-I-A-L

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

D. COMMUNIST FAR EAST

FIRST PRIORITY

CHINA

1. Transportation: Coverage of inland waterways, coastal shipping, highways and additional coverage of railways

COMMUNIST VIETNAM

1. Bloc assistance programs
2. Land reform and socialization of agriculture
3. Public security
4. Transportation, telecommunications, and geographic

NORTH KOREA

1. Texts of laws, decrees, cabinet decisions

SECOND PRIORITY

CHINA

1. Domestic and foreign trade (except unofficial exchange and barter rates)
2. Political theory and ideology (except coverage of Hsueh-hsi and other theoretical journals)
3. Shipyards, other than Shanghai
4. Tests of directives, regulations and decrees (except for socialization of agriculture, industry and commerce)

COMMUNIST VIETNAM

1. Living standards
2. Public opinion and morale

C-O-N-F-I-D-E-N-T-I-A-L

C-O-N-F-I-D-E-N-T-I-A-L

APPENDIX B

D. COMMUNIST FAR EAST

THIRD PRIORITY

COMMUNIST CHINA

1. Local governmental and political biography
2. Governmental and CCP organization and operations below the provincial level. Parties other than the CCP on all levels.
3. Education under the ministry of education and ministry of higher education, except the Academia Sinica
4. Mass (cultural) organization
5. Health and welfare, including standard of living
6. Trade unions

COMMUNIST VIETNAM

1. Health and welfare
2. Minorities

C-O-N-F-I-D-E-N-T-I-A-L
